

Specifications

Furnish laminated rubber dock bumpers, Model _____ as manufactured under the Aaron-Bradley™ brand.

Resilient rubber material shall be rubberized-fabric truck tires cut to uniform size. Bumpers shall be _____ thick x _____ high x _____ wide, and be closed with two structural angles under approximately 1,500 lbs. of pressure. Angles/Flat* plates are welded to 3/4" rods at one end and closed with hex nuts on threaded end of rod. The anchor leg of angle shall have two or three 13/16" blot holes as required. (*Flat plate enclosures are optional.)

Exposed metal parts shall be coated with lead free flat black enamel paint or optional hot dipped galvanize finish.

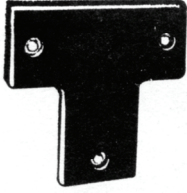

Horizontal & Vertical Models (Typical)

Model	A x B x C Size	D Anchor Bolt Holes	E Overall Length	Wt Lbs
B4H624	4-1/2"x6"x24"	24"	26"	29
B4H1012	4-1/2"x10"x12"	12"	14"	26
B4H1018	4-1/2"x10"x18"	18"	20"	37
B4H1024	4-1/2"x10"x24"	24"	26"	46
B4H1212	4-1/2"x12"x12"	12"	14"	29
B4H1218	4-1/2"x12"x18"	18"	20"	44
B4H1224	4-1/2"x12"x24"	24"	26"	58
B4V20	4-1/2"x20"x13"	13"	15"	46
